

AgriSA's stance on the

Employment Equity Amendment Act

AgriSA is **opposed to the numerical targets**. It is **unrealistic and unfeasible** given the **labour market dynamics** of the agricultural industry.

AgriSA has **voiced its concern** to the **Minister** of Department of Employment and Labour on the **consultation process** pertaining the **proposed targets** and the **feasibility** of the **agricultural targets in principle**.

AgriSA is **actively pursuing other lobbying efforts** alongside the broader organised business community and will as a **last resort consider legal remedies** when appropriate.
